# How to read this Trackbook

In general

This Trackbook is build up like a Roadbook. That means every junction on the road has a symbol, showing where you are, what you expect or where you should go. But lets explain it with an example:

Indicates where you are on the track
Here: track 3 symbol 10

Indicates the km on the track where you encounter this situation
Here: KM22.7

3.10		22.7

70 cm

N 63 49 31
W 19 12 53

You are coming from here

Symbol explains the situation
Here: Watercrossing 70 deep

Degrees / Minutes / Seconds
GPS Coordinates of the position where you are

Some additional information

Drive a curve downstream, rocks
